

## HPTV2404-2

### Video Power Supply/ Distribution Unit

#### Description

The HPTV2404-2 is a video power supply and distribution unit designed to operate CCTV cameras and other video accessories. The HPTV2404-2 provides a constant source of 24 VAC with a total of 8.0 A of supply current. Four individual outputs route power to operate CCTV cameras and other video accessories. For overload protection, the HPTV2404-2 uses automotive style fuses.

#### Benefits

- An all-in-one power supply and distribution unit enclosed in a roomy cabinet.
- Transformer thermal protection limits damage from overload circuits.
- LED lights for quick and easy diagnosis, troubleshooting, and status indication.
- Fully assembled with accessories included for quick installation.
- Enclosure built for durability and product life.
- Power disconnect switch for easy servicing.
- Power cord included; three conductors for ground safety convenience.

#### Specifications

- Input: 115 VAC, 60 Hz, 1.75 A.
- Output: 8.0 A, 200 VA supply current.
- Four fuse-protected outputs (output fuses are rated at 5.0 A).
- Input and output are surge and transient protected.
- Transformer with built-in thermal protection.

- Individual LED indicators for each output indicates blown fuse.
- Power disconnect switch on HP04 distribution board.
- Cord set included.
- Unit maintains camera synchronization.
- Hinged cover and vented enclosure with five convenient knockouts.
- Installs quickly.
- Cabinet dimensions: 10" H x 11.5" W x 4.875" D (cm: 25.4 H x 29.21 W x 12.38 D).
- Temperature range: 32°F to 120°F (0°C to 49°C); indoor use only.
